My IB Diploma helped me to skip the foundation year and now that I have a strong foundation which really helps me in my academics of medicine. I was an American Diploma student at MKS till grade 10 and then selected IB as my educational pathway and now that I feel it gave me a perspective that I never would have had otherwise, and I would not be the person that I am today...always those two years of IB will be more influencing on me ever, I am sure’
